## RED RUNS RUSSIAN RIOT

### Terrible State Of Affairs Existing in Capital of The Czar's Dominions

#### MEN, WOMEN AND CHILDREN SHOT

The Revolt of the Striking Workmen in the Russian Capital Culminates in a Deadly Conflict With the Troops—One Detachment of the Infantry Refuses to Fire on the Strikers, Throwing Down Its Arms.

St. Petersburg, By Cable.—The revolt of striking workmen culminated Sunday in a bloody conflict with the troops. At 9:30 o'clock p. m., it was believed that 1,500 people had been killed or wounded, but all estimates for the present must be accepted with caution. Popular rumor says that many thousands have fallen. The city at 9:30 was quiet. Troops are bivouacked around camp fires here and there in the streets. One detachment of infantry refused to fire on the people and laid down their arms, but Uhlans and Cossacks attacked those the infantry would not. Firing continues on the Vassiliostroy. It is rumored that the workmen there have seized a dynamite factory and also that 30,000 or 40,000 armed strikers from Kolpino, 16 miles distant, are marching on St. Petersburg.

MIDLLE CLASSES FAVOR WORKMEN.

Barricades erected on the island of Vassili Ostrov late Sunday night were destroyed by troops almost immediately, with the loss of 30 workmen killed. The sympathy of the middle class is with the workmen.

Father Gopon, the master mind of the movement, aimed at open revolution, he managed the affair like a genius to break the faith of the people in the "Little Father," who, they were convinced, and whom Father Gopon had taught them, would right their wrongs and redress their grievances. Gorky, the Russian novelist, expressed the opinion that Sunday's work will break this faith of the people in the Emperor. He said:

MEANS REVOLUTION.

"This day inaugurated revolution in Russia. The Emperor's prestige will be irrevocably shattered by the shedding of innocent blood. He has alienated himself forever from his people. Gopon taught the workmen to believe that an appeal direct to the "Little Father" would be heeded. They have been undeceived. Gopon is now convinced that peaceful means have failed and that the only remedy is force. The first blood has been shed, but more will follow. It is now the people against the oppressors, and the battle will be fought to the bitter end."

DESPERATE STRRET FIGHTING.

The military authorities had a firm grip on every artery in the city. At daybreak, guards, regiments, cavalry held every bridge across the frozen Neva, the network of canals which interlaces the city, and the gates leading from the industrial section; while in the palace square, at the storm center, were marched dragoons, infantry, and Cossacks of the guard. Barred from the bridges and gates, men, women and children crossed the frozen river and canals on the ice by twos and threes, hurrying to the palace square, where they were sure the Emperor would be to hear them. The street approaches to the square were cleared by volleys and Cossack charges. Men and women, infuriated to frenzy by the loss of loved ones, cursed the soldiers while they retreated. Men harrangued the crowds, telling them that the Emperor had folled them and that the time had come to act. Men began to build barricades in the Nevsky prospect and at other points, using any material that came to hand and even chopping down telegraph poles.

Fighting meantime continued at various places, soldiers volleying and charging the mob. The whole city was in a state of panic. Women were running through the streets seeking lost members of their families. Several barricades were carried by the troops.

Towards 8 o'clock in the evening the crowds, exhausted, began to disperse, leaving the military in possession. As they retreated up the Nevsky Prospect, the workmen put out all the lights. The little chapel at the Narva gate was wrecked.

WITTE MAY BE DICTATOR.

On the Kaminostov all the lights were extinguished and an officer was found and mobbed. A general was killed on the Nicholas bridge and a dozen officers were stripped of their epaulets and deprived of their swords. It is rumored that M. Witte will be appointed dictator, but the report is not confirmed. The authorities, while they seem to realize the magniture of the crisis with which the dynasty and autocracy are confronted on account of events, apparently are paralyzed for a moment.

MUST END THE WAR.

An official statement was promised at midnight, at which hour it was announced that it had been postponed. Intense indignation is bound to be aroused all over Russia. The workmen and revolutionists expect news from Moscow and other big centers, where the troops are not of the same class as the guards regiments of St. Petersburg.

A member of the Emperor's household is quoted as saying that this conflict will end the war with Japan, and that Russia will have a constitution, or Emperor Nicholas will lose his head.

The Warsaw & Baltic Railroad is reported to have been torn up for a mile and a half, but the damage is said to have been repaired.

There are rumors of trouble in Finland and disaffection of the troops.

WILL CONTINUE TO FIGHT.

With darkness it was feared the mob might try to loot and pillage and even burn, but beyond the breaking of a few windows in the Nevsky prospect and the pillaging of fruit shops, little disorder was reported. Most of the theatres were closed, but at the People's Palace, which was open, Liberals attempted to harange the audience, proposing, but at the close the audience testified to their sympathy with the workmen. In the meantime the strike leaders met and decided to continue the struggle with arms. No day was fixed for the demonstration. The strikers are so excited, however, that trouble is expected.

At a big meeting the following message from M. Gorky, the novelist, was read:

GORKY'S INCENDIARY MESSAGE.

"Beloved associates: We have no Emperor. Innocent blood lies between him and the people. Now begins the people's struggle for freedom. May it prosper. My blessing upon you all. Would I might be with you; but I have much to do."

A workman who was introduced to speak in Father Gopon's name made a fiery speech. He appealed to Liberals to furnish arms. The meeting adopted a letter denouncing the officers and regiments that fired on the workmen and another letter extoiling the Moscow regiment, which refused to fire.

## DANGER POINT IN MOSCOW

Presence of More Workmen and Fewer Troops in the Ancient Capital and Modern Industrial Centre of Russia Makes the Situation Extremely Perilous in View of the Intense Feeling Aroused.

St. Petersburg, By Cable.—The most startling feature in the situation Monday night was the news that several factories in Moscow had closed, and that the workmen in the old capital of Russia are repeating the tatics of their fellow-workmen of the new capital, marching from shop to shop and mill to mill, demanding that the establishment should be shut down. The whole city is reported to be in a state of great excitement over the news of the bloodshed here Sunday, which precipitated immediately the strike that had been planned for Wednesday. Moscow has more workmen and less troops than St. Petersburg, and, besides, is just now the heart of the Liberal movement, and the danger of bloodier occurrences there than has been witnessed here are proportionately greater. A rising at Moscow is also more likely to have greater results, industrially and politically, than that in St. Petersburg.

PROSPECT OF GENERAL STRIKE.

According to private reports, the workingmen in several other big cities notably Kharkoff, where large locomotive works are located, already have completed plans for a general suspension of work. Moreover, reports are current that the workmen, who otherwise would soon be forced back into the shops or starve, have received assurances of financial support from the sources which hitherto have furnished the sinews of war to the Liberal and revolutionary agitation, but have not before been in touch with the labor movement. If the strike becomes general all over Russia, and especially if the railroads are drawn in, it might immediately force the nation to make peace with Japan.

The situation appears grave from every standpoint; but the authorities, although apparently somewhat bewildered, declare their purpose to stand firm, maintaining that it is their first duty to preserve order, scouting the idea of actual revolution. Seemingly, the Ministers are most concerned over the effect of the present situation abroad, where, they declare, exaggerated reports create a false impression.

CZAR MAY INTERVENE.

What, if any, steps have been taken, to meet the general situation has not yet been disclosed, but there are extremely significant reports tonight that Emperor Nicholas, in making the decision at the extraordinary meeting of the Council of the Empire at Tsarskoe Selo, to declare St. Petersburg in a state of siege, announced that he had resolved to issue a manifesto to the people with a view to calming them, promising the create a mixed commission of workmen and officials to investigate and decide the questions of the demands of the strikers, especially the one affecting hours of labor, which Russian laws fixes at 11. The representatives of the workmen, according to this report, are not to be appointed, but selected by the laboring men themselves. This will be the first concession to the representative principle.

#### Total Dead About 500.

St. Petersburg, By Cable.—The estimates of the number of dead and wounded continue to vary greatly, as at least a majority of the killed and wounded were carried off by their comrades. Few of those taken to hospitals have been reported. The official account of the rioting by no means indicates the total of killed and wounded. From careful investigation by the staff of the Associated Press it appears that the estimate of 500 seems liberal. There were 47 killed and 54 wounded at Futiloff works, where the greatest casualties occurred; about 60 in the Alexander Gardens, 15 in the Moika district, 45 in the Vassiliostrov district and the remainder at various other points.

Work That is Being Done By the North Carolina Lawmakers.

In the Senate.

A bill to prohibit sale and manufacture of liquor in Richmond county to go into effect April 1st was taken up. The time arriving for the special order, the bill to repeal the anti-jug law, it was mutually agreed it should be postponed and made a special order for January 26. Consderation of Richmond county bill was resumed and Mr. Burton, of Richmond, offered an amendment that the act should go into effect July 1. Mr. Butler offered another striking out Richmond county and inserting "North Carolina, repealing all laws in conflict with." Mr. Murphy, of Buncombe, inquired: "Does the gentleman in that amendment represent his party, the Republican paty of the State?" Mr. Butler replied: "I am here representing my county, which is a prohibition county, but I im not making a mistake when I say I can represent the Republican party as taking that step." Great applause.

Mr. Beaman, Republican, of Mitchell, said he would to God the amendment would pass and was satisfied the Republican party in North Carolina was in favor of an honest prohibition law, treating all sections of the State alike. Mr. McNinch said he challenged the Republican party to cite a single instance in which it had not stood up for the whisky traffic, and if it had undergone any change in the past it was on account of being purified by the Democrate party.

In reply to McNinch, Mr. Butler said he would assure him that the Republican party in North Carolina would endorse the amendment, but he had offered it without consultation with a single soul, but in absolute good faith. The question came up first on Mr. Butler's amendment. The roll-call was demanded, as the amendment was defeated, ayes 9, noes 81. The amendment giving those who had been granted license until July 1 in which to prepare for closing out their business, was adopted. It passed final reading, only one no being heard, that of Warburton.

Each bag or package shall have plainly printed or marked whether meal is bolted or unbolted, amount it contains and weight. This does not apply to retailing of meal direct to customers from bulk stock when priced and delivered by actual weight or measure.

The House of Representatives Saturday passed the bill providing prohibition for Scotland Neck, the clause extending prohibition to limits of eight miles around the town being stricken out.

There was an extended argument on the bill making it only a misdemeanor to take a horse from an owner for simply temporary use, strong opposition causing its re-reference to the judiciary committee. A bill that was intended to authorize the waiving of homestead by note was tabled; also a bill to change the time of meeting of the General Assembly from January to April.

The bill to authorize courts to consider the title of an act a part thereof passed. This is a substitute for a bill that was introduced imposing a heavy penalty for smuggling a deceptively entitled bill through the Legislature.

Both the Senate and House had a very short session. Bills were introduced in the Senate amending the negotiable instrument law; to reduce passenger fares to three cents per mile and abolish second-class fares; to cure defective orders on registration of deeds; regulating manufacture and sales of liquor in the State; amending the Watts law by striking out the words "manufacture" in the first section, and by adding to that section the following words: "It shall be unlawful for any person or persons, firm, or corporation, to manufacture or rectify for gain any spirituous, vinous or malt liquors, or intoxicating bitters within this State except in incorporated cities having more than 1,500 population, wherein the manufacture is not or may not hereafter be prohibited by law or regulated by special statute. Chairman Mitchell, of the House committee on expenditures, called attention to the law requiring all State officers and heads of institutions to furnish the Legislature detailed lists of all employes, names and salaries, saying that it ought to be enforced or repealed; that the institutions asked for half a million dollars additional appropriation and this information was desired. The bill regarding purity in art is introduced at the instance of the ladies of the State, who want purity in newspaper advertisements.

## THE ANTI-SALOON MEETING

Reports Favoring Dispensaries as Alternatives to Bar-Rooms and Endorsing Medical Dispensaries For Dry Towns Caudse Much Controversy.

Raleigh, Special.—The State Anti-Saloon Convention which met at Raleigh, adjourned Thursday night at midnight, having spent three hours of the latter part of the sesion in a hot disagreement on the recommendation of committees endorsing dispensaries as alternatives to saloons and on the proposition to establish medical dispensaries in prohibition towns. The medical dispensary section of the report was overwhelmingly defeated. The hottest discussion was over the resolution declaring for dispensaries as alternates where prohibition could not be had. The ministerial delegates had principally led the fight against the proposition. Rev. Dr. H. W. Battle, of Greensboro, coming to the support of the dispensary advocates at the last moment, as the clock struck 12, and succeeded in getting a motion to table the resolution to withdraw. The fight for dispensary endorsement was led by James H. Pou, W. C. Douglas, President Page, Chairman Bailey, Dr. McKelway, W. A. Dunn and others. Dr. McKelway said that unless it was adopted Chairman Bailey would not accept the chairmanship again and the State Liquor Association could well afford to pay $10,000. Mr. Bailey declared that he had not mentioned his resignation as a threat. The resolution was adopted by a large majority of the 75 delegates present.

The resolutions reported by the committees and adopted contained among other demands of legislation, the enactment of laws for all saloons in the State to close at 8 o'clock; no liquor to be shipped into prohibition territory; Watts law to apply to rectifiers; no saloons in towns less than 200 inhabitants and repeal of all laws allowing manufacture or sale of liquor in little towns; second conviction for violating prohibiton law punishable by imprisonment; means of more rigidly enforcing Watts law by additional territory and forfeiture of pharmacist license by violating law; where counties secure prohibition by voting under the Watts law, same could have prohibition made permanent by the Legislature if the people demanded it by a majority of qualified voters by petition; anti-jug law for the State forbidding handing or drinking liquor in restaurants or such places in prohibition towns; presence of United States license to deal in liquor to be prima facia by such shipment of liquor as to become menace to prohibition territory declared entitled to forfeit to Watts law, and subject to special legislation law. These principals as reported by committees with H. A. London, chairman of one, A. J. McKelway of the other, were adopted and James H. Pou, W. C. Douglas and Stephen McIntyre appointed special legislative committee to see laws enacted.

Rev. N. L. Glenn, colored, pastor of the new undenominational church at Winston, recently erected on East Ninth street, was arrested this afternoon on the charge of carrying a concealed weapon and threatening to shoot "Dock" Brewer, a young white man. The colored parson was seen at the police station and questioned about the charges against him. He admitted that he carried a pistol occasionally, and said that he drew it on Brewer, but did it to make the white man stop throwing rocks at a little negro boy. The officers say that Glenn ran like a Turk when he saw the policemen coming after him. The preacher went to the office of a colored lawyer, where the pistol was found.

Clifton Green, a young mill hand who had been employed at the Elizabeth Mills in Charlotte, died Monday night shortly after midnight at the Presbyterian Hospital in that city. He had been taken there only a few hours before, suffering with pneumonia. The body was taken in charge by J. M. Harry & Co. The young man was only 20 years old.

J. L. Fountain, a prosperous merchant of Frankland, Pitt county, lost his stables by fire Friday night. Two valuable mules, four milk cows and a calf perished in the flames and a quantity of feed was burned. This is supposed to have been the act of an incendiary.

With the January number Dr. John Spencer Bassett announces that he will retire from the editorship of the Atlantic Quarterly. This position he has held since the establishment of the journal in January, 1902.

Gorman Burns, the gamkeeper who was accidentally shot in the eye by George Gould on his game preserve near High Point, returned home Wednesday, accompanied by a bride to whom he was married a few days ago. Mrs. Burns was Miss Henrietta J. Pierce, a nurse in the New York Eye and Ear Infirmary. She was in attendance on Burns while he was under treatment, which involved the removal of the injured eye. The discharge of the patient, the resignation of the nurse, and the wedding occurred the same day.

Fire Friday night destroyed a lot of property in Hamlet, and at one time it looked as if the whole town would be destroyed.

The Charlotte Poultry Show opened Wednesday under auspices that are more promising by far than anything of its kind that has, so far, been undertaken in that city. Mr. H. Schwab, a man who is of well-recognized ability and authority, will serve as judge. He is known all over the country, and his presence will mean much to the poultry producers in North Carolina, as well as in Mecklenburg county. So far there are 1,200 entries with a fine representation from the States, viz.: the two Carolinas, Virginia, Tennessee and Georgia.

### CHANGE CHURCH LIMITS FOR GROG SHOPS.

Two bills have been introduced in the legislature to change the corporate limits of churches so democratic dispensaries could be operated in the nearby towns. A dispensary had been established in a small town in Pitt, but it was found that an incorporated church was too near them. So it was necessary to change the corporate limits of this church so a dispensary could be operated in the town. The second bill applied to the town of Roper, a village of 200 inhabitants, in Washington county, and on top of this a bill was also introduced to prohibit bicyclist from riding on the side-walks in the town of Roper. This latter bill was evidently intended to prevent bicyclists from running over drunken men after they get the democratic dispensary in Roper. But isn't it rather strange, that what claims to be a prohibition legislature would go so far as to change corporate limits of churches in order to establish democratic grog-shops.

### "BULL" ON ONE SIDE AND "BEAR" ON THE OTHER.

"The bears are getting frantic. They have contracted to sell many thousand pounds of low priced cotton. They cannot get the cotton to deliver and they are moving heaven and earth to get cotton to keep down the prices Their great zeal should convince farmers that they can win their fight if they are firm.

The bears must have cotton. The farmers do not need to sell. Every farmer who sells cotton at prevailing prices is helping the bears. Let them hold on to their cotton and reduce the acreage, and they will better prices."

The above editorial on the cotton of the News and Observer. But this is not all that appeared in the Observer on Sunday on the cotton situation, for there appeared on the opposite side of this editorial a three column article on why farmers should sell their cotton now and why cotton would go lower instead of higher. This article appeared in the form of a communication and was signed by one Thos. H. Price. But we suppose Mr. Price paid even a higher price for the insertion of this communication. Even if it was an advertisement, and the ads. in the Observer are read as extensively as the management claims, isn't the Observer doing its readers a great injustice to publish an article by one of the "bears" and thereby help them out in their scheme to get the farmers' cotton for nothing. That advertisement may help the business part of the Observer, but on the other hand if its readers have any faith in what it sees in that paper it will cause some farmers to lose money on their cotton. For many readers would see the large three-column article that would not see the little two-inch editorial.

The Democratic politicians of Buncombe county have a movement on foot to establish a dispensary in Asheville. It is now easily understood why they had the Legislature pass a bill driving all the distilleries out of Asheville except one large fellow. This Democratic distillery was left to manufacture the whiskey for the Democratic dispensary so as to keep all the business in the family. One more reason why the Democrats defeated Butler's prohibition amendment.

From a Democratic standpoint. the solution of the liquor problem in this State is to allow Democrats to manufacture, buy, sell and drink the the stuff. For when Republicans apply the News and Observer may think them agents of the demon desiring to operate "Hell Kettles" to manufacture "Hell Broth" to destroy the young manhood in this State.

Why does this legislature object to driving whiskey out of the State? Do they want to keep it here to debauch the voters in campaigns as they did in Buncombe county in the last campaign?

Thomas Jefferson would turn over in his grave if he only knew how the Democrats are taking his name in vain.

Now who are the "morally stunted" in this State? Will the News and Observer and Charlotte Observer please answer?

Have you asked your neighbor to subscribe for The Caucasian? If not you should do so at once. If we can get the people to reading so they will learn the true state of affairs in this State, we can redeem the State from Democratic extravagance at the next election.

Why did the Democrats in the Legislature refuse to appoint any Republican members on the committee to investigate to number of laborers and other employes and the duties they were supposed to perform? Was there "something rotten in Denmark"

The last issue of the Yellow Jacket pierced the following sting into the red-shirt leaders in this State:

"Right here in North Carolina leading Democrats go about in broad daylight boasting that they have shot negroes, driven white men from the polls, stuffed ballot boxes and taken the offices by force and against the will of the people. And yet there are some people who think there is no need of a hell!"

When the bill to prohibit the manufacture and sale of whiskey in Richmond county was before the House on its third reading Friday, Representative Butler, of Sampson, offered an amendment to the bill, to strike out Richmond county where it appeared in the bill and insert North Carolina instead. This would have prohibited the manufacture and sale of any intoxicants in the State except on prescriptions at drug stores. Every Democrat in the House, save one, voted against Butler's amendment, while nearly all the Republicans voted for the amendment, and Messrs. Bowman and Meekins made strong speeches in favor of the amendment. Do the Democrats want prohibition in this State, or have they been fooling the people in order to get the whiskey monopoly themselves. Again we ask, who are the "Morally Stunted" We will comment on this subject at some length in our next issue. If you want to read some truths and something that will interest you, don't fail to read our next issue.

Troy, N C., Jan. 24.—The worst wreck in the history of the Asheboro and Aberdeen Railroad occurred within two hundred yards of the station here this morning as the eleven o'clock train was coming from Mt. ## Proceedings of the Legislature

(CONTINUED FROM FIRST PAGE)

### MONDAY.

A bill was introduced in the Senate by Mr. Ward, of Craven, intended as an amendment to the Watt's Law. One feature of the bill is that it makes a distinction between barrooms and stills, in prohibiting the manutacture only of whiskey in incorporated towns or cities having not less than 1,500 population, these not necessarily being qualified voters There is no limit of population for bar-rooms. The bill also permits heads of families to secure whiskey from drug stores by making affidavit that it is needed for sickness, with a penalty for corrupt affidavits. The Watts law permits the public to purchase whiskey upon the prescription of a physician, but the Ward act would only permit the heads of families to get it. The bill further requires that towns selling liquor shall maintain police protection of at least two policemen.

A bill was introduced in the House by Taylor, of Brunswick, to repeal the charter of the town of Myrtle. This bill is intended to drive the whiskey distillery out of that town that was incorporated by the last legislature.

**Mr. Mott Receives no Pay.**

Muskogee, I. T., Jan. 23.—The Territorial Court today restrained Chief Porter from paying M. L. Mott, of North Carolina, whom he appointed attorney for the Creek Nation, and ordered A. Murphy, of Missouri, reinstated as attorney for the Creeks. Mr. Murphy was appointed attorney a year ago by Secretary Hitchcock but was ousted by Chief Porter, who placed Mr. Mott in the position.

### TURN ON THE LIGHT.

**Republican Members Refused Representation on Committees to Investigate the Number of Pie-eaters.**

The Democratic Legislature, true to its former policy, is determined that the public shall know nothing of their extravagance and corruption. It was known that they had several clerks on the pay rolls drawing from the tax payers of the State four dollars a day each when the heads of said departments were openly saying they could find nothing for them to do. Yet they had been political heelers and must be provided for. They also had numbers of laborers who were absolutely doing nothing, drawing two dollars and a half per day each. Members had brought down their little boys and as the price of their support for speaker and seargent at arms had demanded that their boys should be put on as pages and draw each one dollar per day, till it was said that it was dangerous to go inside the capitol for fear you would step on one of these pages.

Mr. Fowler, a Republican member from Sampson, introduced a resolution requiring the speaker to appoint a committee consisting of three democratic members of the House and two Republican members whose duty i should be to investigate this quesion and report to the House what clerks, laborers and pages were on the pay rolls, who were rendering no service The Raleigh Post took up the subject and said it ought to pass and should not be voted down because it was introduced by a Republican. The Democrats seeing the hole they were in, something must be done, had one of their number a Mr. Mitchll from Bertie county to introduce a substitute for Mr. Fowler's resolution requiring the Speaker to appoint a committee without regard to their politics to ascertain how many clerks, laborers and pages were needed.

In compliance with the resolution the Speaker appointed a committee of three Democrats and no Republicans, and this committee reported back that the House needed twenty four laborers at two dollars and half per day; but did not say how many of these had been drawing pay before this. Tax payers think for a minute One hundred and twenty members of the House require the services of twenty-four raborers at two dollars and fifty cents each pr day or a total of sixty dollars per day to make fires for them and to sweep up the hall. Verily they must be a mighty cold natured and filthy set.

Again, think of the twelve pages drawing each a dollar per day whose only duty it is to carry notes and buy cigars for the members. Any member will tell you that more than five pages are in the way, and even five pages would not be busy more than about one-third of about four hours per day.

But they are the sons of members or political pets and must be provided for.

The committee said absolutely nothing about the many clerks who are known to have had nothing to do and who are each drawing four dollars per day. Why did they refuse to let Mr. Fowler's resolution pass? The answer is plain; they knew if Republicans were put upon that committee and let on the inside of their workings, that the facts would be given to the people and would make mighty interesting reading in the next campaign when they will be around telling how pure and economical they have managed your affairs.

The next day Mr. Fowler introduced a bill providing for minority representation to be appointed on all, investigathg committees and the Democrats are refusing to let it come up. This should be done and then in all cass of public scandal, as in the management of the A and N. C. R. R investigation, the people would not think that committees were being paid out of their taxes for the purpose of whitewashing, sleeking over or covering up fraud, corruption and extravagance for political effect; but would expect and would get at the real facts as they exist. The Republicans have always given Democrats represention on committees appointed to investigate any alleged crookedness or rottenness. If the Democrats want to be honest and fair why are they afraid to let a Republican see what they are or have been doing. See!

We are only prudent in pushing our present stocks before the Spring Goods put in their appearance.

Hence our willingness to pocket any loss to effect a speedy and absolute clearance.

Of course that's easy.
But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you.

Dr. Miles' Nervine, however, as years of experience have proved, is a medicine that cures the sick.

Those whom it cannot benefit—less than one in ten thousand—we prefer to refund their money.

All we ask of you is to try Dr. Miles' Restorative Nervine for your complaint. ## FROM OUR EXCHANGES.

Some Squibs of Interest We Have Gathered With Our Paste-Pot and Shears.

Looks like the west is having an inning just now. Most of Gov. Glenn's appointments are from this section. Every dog has his day.—Greensboro Record.

Now we know what started the talk about enlarging the capitol building. The legislature wanted more room for clerks and "laborers."—Raleigh Enterprise.

A short time back we were informed that the penitentiary managers were carting round a large surplus of hard cash. We see Supt. Mann is now asking the Legislature for an appropriation to meet expenses. How is that? They've done told two tales about it.—Peoples Paper.

If speedy trials are good things for negroes charged with capital crimes, why are they not good things for influential white folks charged with like crimes?

Come to think of it, it would be a bad idea for the Legislature to pass a law making murder a crime. The law cannot correct the vices of the people but it can punish their crimes.—Durham Herald.

North Carolina Democrats do not want office—they say. Yet Governor Glenn has the appointment of 8 directors of the N. C. R. R., and has thus far only 1,740 applicants. The emoluments consist chiefly of a free pass which, by the way, Governor Glenn has learned to value by frequent usage in the past. Ye gods and little fishes. We did not think that the Democrats were that hungry. With an office and salary attached it would be a scramble worse than at the ticket wagon on circus day.—Union Republican.

The Virginia courts have refused to grant Mayor McCue a new trial and he will hang unless the Governor interferes. It certainly looks bad for McCue, yet it is hard to believe that a man of his former position and influence will not find a way out of it. He would fare better in North Carolina.—Durham Herald.

If he had been here and sentenced before the Governor of Eastern North Carolina went out of business, he could have been pardoned by chipping in $3,000 to the school fund.—Peoples Paper.

### An Assumed Right.

It would appear that marriage gives to the husband in Jamaca peculiar rights, if one may judge from the remark of a native woman who came to a magistrate to make complaint because a man had knocked her down.

She closed her complaint by saying, in an aggrieved tone, "And me had no good right to knock me down; he is not my husband."—February Woman's Home Companion.

### Time Made a Change.

"They fell in love at first sight."

"They fell out later. Guess they found second sight was best."—February Woman's Home Companion.

One of the most interesting of towns over which floats the stars and stripes is Nome, Alaska. Its development has been wonderful, and the tale of its progress is told by Alfred H. Dunham, Chief Game Warden of Alaska, in the February "Cosmopolitan." Some interesting pictures of the mushroom city tell the story almost as well as does the text.

### Figures Studied.

Gobang—Do you believe that seabathing is a popular as it was a few years ago?

Chipinone—Sure. Figures prove it.—February Woman's Home Companion.

### The Little Girl and the Old Soldier.

It's just a short, simple story. It tells of the love of a gentle little girl for a gallant old soldier who is near his last roll-call. And yet "The Old Major," by Florence Tinsley Cox, published in the February McClure's will impress deeply every reader who cares for tenderness and sincerity.

This is announced as the first of a series of child stories by this author. We trust they will all be told with tha same charming sincerity and grace.

SICKENING SHIVERING FITS of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferd to Quinine, having none of this drug's bad after effects. E. S. Munday, of Henrietto, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At any drug store; price 50c, guaranteed.

### The "Prominent Family" Racket?

Referring to the recent killing of old man Alford by Bynum, his business partner in Raleigh the other day, the Durham Herald says:

"We cannot understand why that Raleigh murderer wished to get away."

His going away was unnecessary and may prejudice his case. He belonged, we are told, to a prominent and influential family; eminent counsel having been employed to defend him, and it is reasonable to suppose that the insanity dodge which will be worked, or the plea of self defense will see him through. Speaking of the latter plea, the negro Springs, who shot and killed Officer Cole, near Charlotte the other day, has a case of that kind. Cole approached the negro without a warrant, drew pistol and told Springs to hold up his hands. The negro says he did not know Cole was an officer and so he proceeded to defend himself by shooting. The plea may be defective in this case, because it is not probable that the negro's family is prominent or influential; neither is it probable that he has cash to employ eminent criminal lawyers to defend him. If it were otherwise the plea would at least be as good as that offered by the eminent Mr. Bishop, who invaded a private residence in Charlotte and engaged in unseemly conduct, and when ordered out by the head of the house proclaimed himself a gentleman and shot the owner of the premises to death; for which cold-blooded murder Mr Bishop got all of five years in the penitentiary and may yet be pardoned.—Statesville Landmark.

### New Advertisement.

Note the new and attractive advertisement of S. Berwanger, the one-price clothier, which appears elsewhere in this issue. Mr. Berwanger's semi-annual clearance sale is now going on. He is offering clothing at from 20 to 38⅓ per cent. discount. Note that this special sale will only last until February 20th.

### Children's Love.

Happiness in marriage is a good deal like happiness in work; it goes far deeper than mere gratification. While gratification fades, happiness remains, and becomes, as it were, a part of one's nature. When my wife and I had passed the youthful period of our love, we knew that we had experienced an intensity of happiness that we could never know again; but the great compensation was that we had no wish to experience it again, because we had found something stable and better, a happiness associated with our most serious interests, with our responsibilities toward society and toward our children. Moreover, with nearly all intense gratification there is the accompaniment of pain; but the love of children is, in its very nature, an unalloyed delight. With the coming of our children, my wife and I knew that we had been given the greatest incentive to good living that human beings can have. If children cannot make parents long to lead fine lives, nothing can.—From "The Autobiography of a Married Man," Everybody's Magazine for February.

# Cured

## At 70 of Heart Disease Contracted

## During Civil War—Veteran Grateful.

## Dr. Miles' Heart Cure Effected Cure.

Heart disease is curable, but in people of advanced age it does not readily lend itself to ordinary treatment. There is, however, hope for all sufferers in Dr. Miles' Heart Cure, which we know from watching hundreds of cases and from the letters of grateful sufferers, will cure where all else has failed. It is not only a wonderful cure for weak and diseased hearts, but it is a blood tonic, a regulator of the heart's action and the most effective treatment ever formulated for improving the circulation of the blood.

"During the Civil war I contracted heart disease, and in 1896, while living in the grand old town of Lexington, Va., I grew so much worse, I left there with my wife to visit my sister-in-law, Mrs. T. A. Kirby, at Roanoke, Va. While I said nothing to anyone I never expected to live to return to the dear old town. On reaching Mrs. Kirby's she insisted I should try Dr. Miles' Heart Cure. I procured a few bottles of it, also the Nervine and Tonic. After using one or two bottles, I could see no improvement, and I despaired of ever being better, but my faithful wife insisted on keeping it up, which I did. Improvement soon began in earnest and I took in all fifteen or sixteen bottles. I was restored to perfect health and while I am 70 years old, I am comparatively a boy. You sir, are a benefactor, and I cheerfully recommend Dr. Miles' Heart Cure to suffering humanity."—J. L. SLAUGHTER, Salem, Va.

**Richest American Soil.**

Something frequently happens that goes to prove the fertility of the soil in the Salt River valley. It is nothing unusual to hear of cutting several crops off one field in one season; grapes frequently bear two crops and so do figs. The latest, however, is reported by James Goodwin. He has in his yard a tree that to the casual observer is only an ordinary pear tree. It was nothing more than this to Mr. Goodwin until this year. He had always noticed that it was of an early variety, and this season along in May a crop of pears was picked. A little later his interest was aroused by noticing the tree in full bloom again. What is still more interesting is that at the present time the tree has another fully matured crop of pears on it which are now ripening as well as did the first crop.

## DISFIGURING ULCER

**People Looked at Her in Amazement—Pronounced Incurable—Face Now Clear as Ever—Thanks God For Cuticura.**

Mrs. P. Hackett, of 400 Van Buren St., Brooklyn, N. Y., says: "I wish to give thanks for the marvelous cure of my mother by Cuticura. She had a severe ulcer, which physicians had pronounced incurable. It was a terrible disfigurement, and people would stand in amazement and look after her. After there was no hope from doctors she began using Cuticura Soap, Ointment and Pills, and now, thank God, she is completely cured, and her face is as smooth and clear as ever."

**Dog Captures a Burglar.**

Observing a light in an unoccupied house in Geneva, Switzerland, one night recently, a policeman entered the window and left a trained police dog on guard outside.

Almost immediately a man pushed past him and dashed out of the house, but was promptly seized by the dog, which sprang at his throat.

A terrible struggle ensued, but the animal, although half stunned by blows from a "jimmy," succeeded in bringing the burglar, a notorious criminal, to the ground, where it held him till its master came and secured the captive.

## CONSTANT ACHING.

Back aches all the time. Spoils your appetite, wearies the body, worries the mind. Kidneys cause it all and Doan's Kidney Pills relieve and cure it.

H. B. McCarver, of 201 Cherry St., Portland, Ore., inspector of freight for the Trans-Continental Co., says: "I used Doan's Kidney Pills for back ache and other symptoms of kidney trouble which had annoyed me for months. I think a cold was responsible for the whole trouble. It seemed to settle in my kidneys. Doan's Kidney Pills rooted it out. It is several months since I used them, and up to date there has been no recurrence of the trouble."

Doan's Kidney Pills for sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y.

**Audacity Won Captain.**

In the days of frontier army posts and Indian fighting a certain captain was as famous for his courage as he was notorious for his love of liquor. One night he thought he heard a burglar in his quarters, so, pistol in hand, he stepped across the hall to the dining room door.

Sure enough, there stood an intruder at the sideboard, where the silverware was displayed.

"What are you doing there?" said the captain, covering his man with the gun.

"Getting a drink of whisky," the burglar answered, calmly filling a glass from one of the captain's bottles

The fellow's serene audacity appealed to the brave captain.

"Say," said he, lowering the pistol, "make it two."

The attack upon the divorce laws and upon divorce suits continue, in the pulpit and, to some extent, in the press. The real difficulty with reform is not the unwillingness of public bodies to act, says the Newark Sunday Call, but the feeling that the remedies suggested for the unhappy growth of divorce are not satisfactory.

There's a world of difference between faith and credulity. So. 4.

# SHOT AT THE CZAR

## A Bold Attempt to Assassinate The Russian Monarch

## SALUTING GUN RAINS GRAPE SHOT

**Only High Aim and Weak, Scattering Charge Prevented a Disasterous Conclusion to the Ceremony of Blessing the Waters of the Neva.**

St. Petersburg, By Cable.—The festival of the Epiphany, the blessing of the waters, had just concluded at 1 o'clock Thursday afternoon, when simultaneously with the salute fired from the St. Peter and St. Paul fortress a rain of bullets swept over the little chapel built over the frozen Neva in front of the winter palace, where Emperor Nicholas and every member of the Romanoff family were participating in the service. The missles went high, entering windows of the splendid row of salons along the water front, from which the Empress, the ladies of the court and the members of the diplomatic corps and high dignitaries of the State, army and navy were witnessing the glittering spectacle below. Fortunately the bullets passed over the heads of all present, striking the opposite wall and clattering down on the parquetted floor of the white salon. Everybody had been laboring under a more or less nervous strain because of the strike situation, and the windows were hastily vacated, and the greatest excitement reigned within the palace. Lieutenant Fulton, chief of police of St. Petersburg, himself picked up a missle in the white salon It was the size of a bird's egg. The police chief was immediately surrounded by officers of the guards, who examined the bullet and expressed the opinion that it had come from a shrapnel which might have been fired from the battery located on the bourse esplanade and which replied to the salute of the St. Peter and St. Paul fortress, explaining that a gun might have been charged with a loaded cartridge by mistake.

In the meantime there was no evidence outside of what had occurred. The crowds of people who formed black lines along the quays, the palace bridge, the steps of the bourse, and every other point of vantage in the white Arctic landscape did not betray the slightest excitement. Neither did the imperial party in the chapel below. Although the actual ceremony was ended, the Emperor remained and accompanied the Metropolitan and clergy as they circled the pavillion around the chapel to bless the gorgeous standards of the famous guard regiments stationed there. Then the procession moved back to the palace, and the original program was carried out. The Emperor displayed splendid nerve. He did not show a trace of excitement. He received the diplomats in his usual cordial, gentle manner, reviewed the guard regiments on the square behind the palace, and subsequently had luncheon served in the State dining room.

Additional particulars show that the Emperor had a miraculous escape. There is no doubt that the missles came from a gun of the bourse battery which was loaded with grape, not with shrapnel. Some of the bullets actually struck the little open chapel in which the Emperor was standing, cut the staff off one of the standards and fairly riddled the basement windows of the palace, killing a policeman outright and wounding an officer and three marines. Had the gun been aimed a little lower the charge of grape might have wiped out the whole Romanoff dynasty.

Two investigations are proceeding independently, and both are guarded with the utmost secrecy.

Military experts say indications point to a charge consisting of grape having been inserted surreptitiously in a saluting cartridge. If this was the case, probably only one man was involved. Certainly if there was an extensive, deep-laid plot, or if an officer was involved, it was badly executed.

**Fall River Strike Over.**

Boston, Mass., Special.—The strike of the cotton mill operatives at Fall River, which effected about 25,000 persons and has been in progress for six months to the great hardship and suffering of Fall River's people, was settled through the mediation of Governor William L. Douglass. Under the terms of the agreement accepted by both manufacturers and operatives at the conference held at the State House today, the strikers will return to work at once under the 12½ per cent reduction, against which they struck last July, and with no discrimination because of the strike. No rate of wages was established, but it was agreed that the Governor shall investigate the matter of margins between the cost of cotton to the mill owners and the selling price of the cloth, and submit his conclusions as to an average margin, upon which the manufactures are to pay a divident of five per cent on wages earned from the present time to April 1st. Both sides regard the outcome of the deliberations as a victory.

**Gen. Lee's' Birthday.**

Richmond, Special.—Elaborate preparations have been made by the local chapter of the Daughters of the Confederacy to celebrate the anniversary of the birthday of General Robert E. Lee. The guests will include a number of prominent ex-Confederates and others who will make addresses. Reports received from chapters from all over the South give plans of an unusually elaborate celebration of the day by Daughters of the Confederacy.

**Farmers Pass Resolutions.**

Macon, Ga., Special.—A special from Lincolnton, Ga., says that the farmers of Lincoln county have pledged themselves to sell no cotton and buy no fertilizers till after the New Orleans convention. They will also reduce acreage. A special from Decatur, Ga., says that the farmers of DeKalb county have agreed to hold the cotton they have at present and to reduce acreage and the use of fertilizers.

The Senate investigation into the protests against Senator Reed Smoot will be brought to a close this week. The cross-examination of the respondent terminated earlier than expected and several other witnesses for the defense were examined. It was the judgment of the committee on elections and privileges that only a few more witnesses would be put on the stand, and except for some documentary evidence, the investigation may concluded in a day or two.

The cross-examination of Senator Smoot resulted in an absolute refusal to testify in regard to the Endowment ceremonies. He also asserted that it was not his busines sto call to account President Smith, of the Mormon Church, because of the fact that Smith admitted to the committee that he was living in violation of the laws of the land. Three other witnesses refused to tell the committee the character of the Endowment ceremonies.

After testifying that President Smith was supreme as head of the Mormon Church, Senator Smoot was asked: "Do you think the President of the Church communicates directly with God—has direct revelation?"

"If God desires to speak to his people, it would be through the President of the Church."

In answering a question as to his belief in modern prophecy, Senator Smoot said: "Men speaking today under the inspiration of the Lord—their counsel is just as good as that of the prophets that spoke under inspiration in ancient days."

Senator Smoot said he only took the Endowment ceremony once, but that he could not say what the ceremony was, as he did not have any definite recollection of it.

"Is there anything in the ceremony about avenging the blood of the martyrs of the Church?"

"There is not."

"How long did it take to perform this ceremony?"

"From beginning to end, about three or four hours."

"State what you are able to recall of it."

"I would much rather not."

"Why not?"

"For conscientious reasons. I made an oath with my God, not with any man, not with the President of the Church, but I did make a vow that I would keep these Endowment ceremonies sacred, and not reveal them to anybody, and I have kept that all my life."

"Was there any penalty attached for the violation of your obligation?"

"I prefer not to say anything further."

"Do you remember whether there was or not?"

"I prefer not to say anything further."

"Do you know why the oath of secrecy was imposed?"

"It is purely a religious ordinance—refers absolutely to a man's hereafter, and has nothing whatever to do with anything other than man's relation to his God, and I suppose that it is an ordinance in the Church, and the rule is that it be not revealed."

"Do you know how much money is paid the Church annually in tithes?" asked Senator Overman.

Mr. Smoot responded that the Church income was some years more than a million, and some years less. The Church, he said, has capital invested in industrial institutions, but in nearly every case a minority of the stock.

Chairman Burrows asked: "You heard the testimony of President Smith, that he is living in defiance of the laws of the land?"

"Yes, sir."

"And that he is also living in defiance of the Divine law?"

"Yes, sir, and I heard the qualifications he made."

"Has the Church proceeded against him because of his violations of the laws?"

"It has not."

"Has there been any attempt to try him because he is living in polygamous cohabitation?"

"There has not."

"Did you see him after he testified before this committee?"

The Senator said he had seen the President of the Church, both in Washington and in Utah, after his testimony, and had made no protest to him concerning his manner of living.

"You have not sought to bring him to trial in any manner?" asked the chairman.

"I have not."

"Do you intend to?"

"I do not."

Mr. Smoot admitted he sustained President Smith, but only as President of the Church.

"Do you teach polygamy?"

"I do not."

"Do you preach against polygamy or unlawful cohabitation?"

"I never have. I do not know why I should. It is not a tenet of the faith. It has been suspended, and I think it would not be proper for me to bring it up."

**Would Tax Indian Lands.**

The consideration of the statehood bill was continued in the Senate and Mr. Stone spoke for two hours in opposition to it. The proposed remuneration to American fur sealers who suffered losses because of their suppression also was debated at some length but no action was taken on it.

Mr. Stone proposed an amendment to the Statehood bill providing that all allotted lands shall be subject to taxation. He said the bill as it stands confers upon the Indians of Indian Territory the rights of citizens, while relieving them of the duties of citizenship. Mr. Bailey took a similar view The Senate adjourned.

**Swayne Case May Be Postponed.**

In view of the prospect of an early presentation to the Senate of the House's articles of impeachment of Judge Swayne, many Senators have been engaged today in considering that question, and Senator Platt, of Connecticut, chairman of the special committee acting for the Senate, has taken a leading part in the work.

**Claims Presented.**

A Brooklyn physician whose memory for names is very poor recently had a patient in his office for whom he was asked to fill out an application for some position. Not wishing to betray the fact that he had forgotten the man's name he casually inquired, as he poised his pen above the paper:

"By the way, how do you spell your name?"

The man gave him a curious glance and said: "J-O-N-E-S—Jones."
